

# Inclusive Landscapes

LE:NOTRE *Institute*  
Linking landscape education, research and innovative practice

6th LE:NOTRE Landscape Forum 2017  
May 16<sup>th</sup> - 20<sup>th</sup> 2017 | Freising - Weihenstephan

HOCHSCHULE  
WEIHENSTEPHAN-TRIESDORF  
UNIVERSITY OF APPLIED SCIENCES

Technical  
University  
of Munich

Hosted by: Weihenstephan-Triesdorf University of Applied Sciences, Department of Landscape Architecture and Technical University of Munich, Chair for Strategic Landscape Planning and Management

## INCLUSIVE LANDSCAPES ARE ACCESSIBLE FOR EVERYONE.

They offer space for collaborative, socially inclusive processes, social participation and interaction for all kinds of people, thus contributing to equity and environmental justice.

This forum will exemplify the concept of "Inclusive Landscapes" in the region of Munich and discuss approaches that are transferable to other metropolitan areas across Europe.

The Landscape Forum provides an opportunity to interact creatively in informal workshops and field visit settings. We invite all students, professionals, researchers, and educators of all landscape-related disciplines.
