

Design Precedent, I'd like you
to meet Environmental Justice.

COMMUNITY PARTICIPATION

An (incomplete) international perspective

Prof. Deni Ruggeri

Dr. Eva Schwab

LED Seminar – Spring 2017

Ecclesia (600 BC) summoning of citizens for oversight of public policy,

Alexis de Tocqueville (1835) *Democracy in America*

Background

Roots of Community Participation

- First example of participation in Ancient greek **ecclesia**
- Deliberative democracy in North America
 - De Tocqueville described **collective decision-making** in early US society
 - In contrast with hierarchical European society of the time
- Barn-raising by pioneers
- Late 1800s: politics as a profession

Barn raising in rural America. Early 20th century collective decision making

Background

Early participation in Germany/Austria

- Europe after WWI
- **Democratization of society** and urban reconstruction influenced by socialist ideas
 - housing co-operatives

Wiener Siedlerbewegung / Housing Co-operatives

Background

US participation as advocacy after WWII

- Participation used to fight/stop/limit urban renewal/urban freeways in American cities
- Civil rights and environmental movements participation = **advocacy planning**
- Results of the advocacy planning
 - NIMBYism
 - Gridlock: politically charged projects are 'resolved' through participation
 - Focused on **litigation** and **mediation**

Highway construction plans for Inner City Cambridge Mass (1950s)

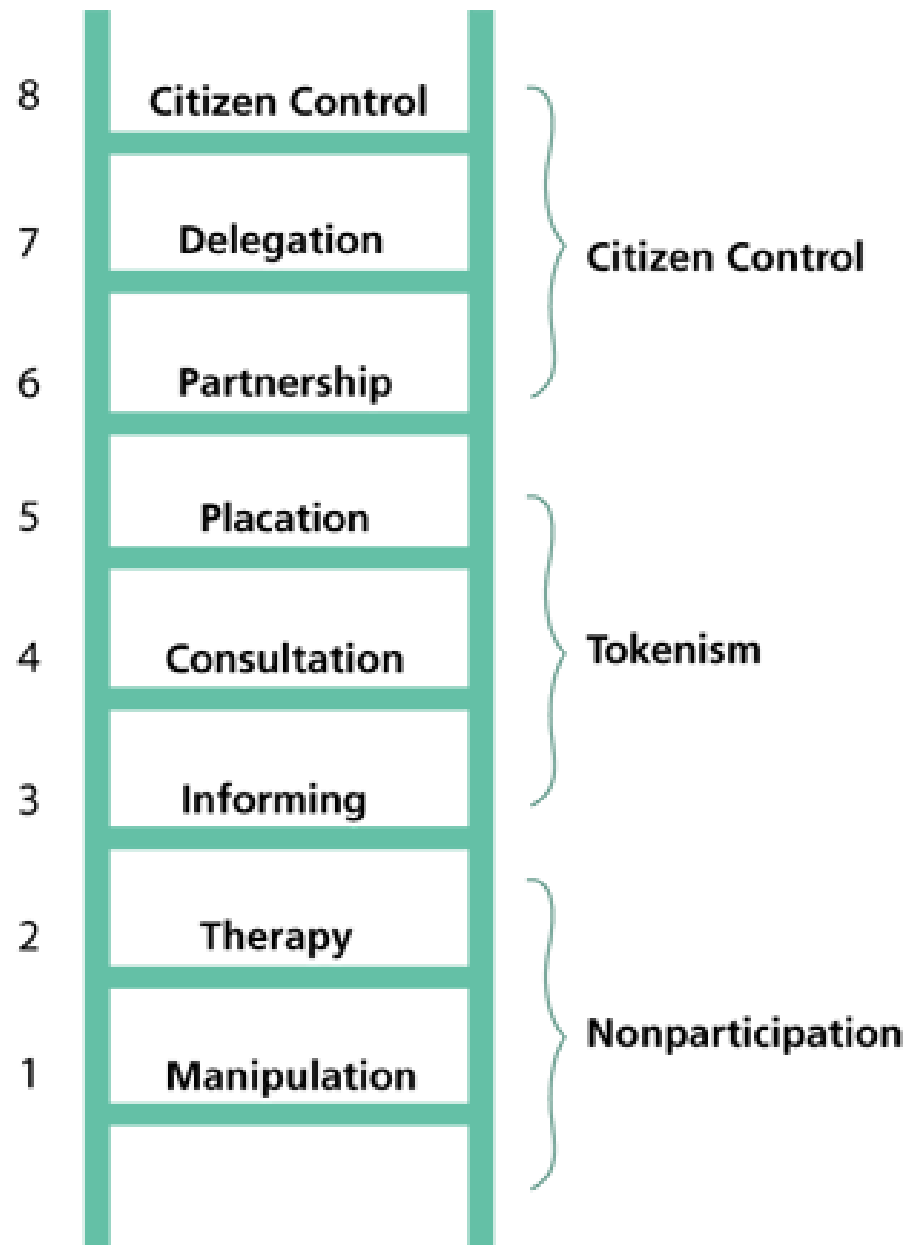

Students at North Carolina State Univ. help residents save their homes in Chavis Heights

Background

Community Participation as law in the US

- 1954 US Legislation on Housing requires citizens advisory groups
- 1969 Arnstein's critique of participation (**the ladder**)
- 1970s and 80s: participation as a business
 - ***“maximum feasible citizen participation”***
 - Applied to Environmental planning/Ecological preservation
 - Historic Preservation
- 1981 Donald Appleyard and the livable streets movement

HISTORIC FEATURES VALUE

BEACH QUALITY

INTERTIDAL HABITAT VALUE

SCENIC VALUE (LAND)

EXISTING FOREST QUALITY

STREAM QUALITY

GEOLOGIC FEATURES VALUE

SCENIC VALUE (WATER)

ECOLOGICAL ASSOCIATIONS VALUE

Donald Appleyard (1982) *Livable Streets*

Background

Community Participation as New Social Movement in Germany/Austria

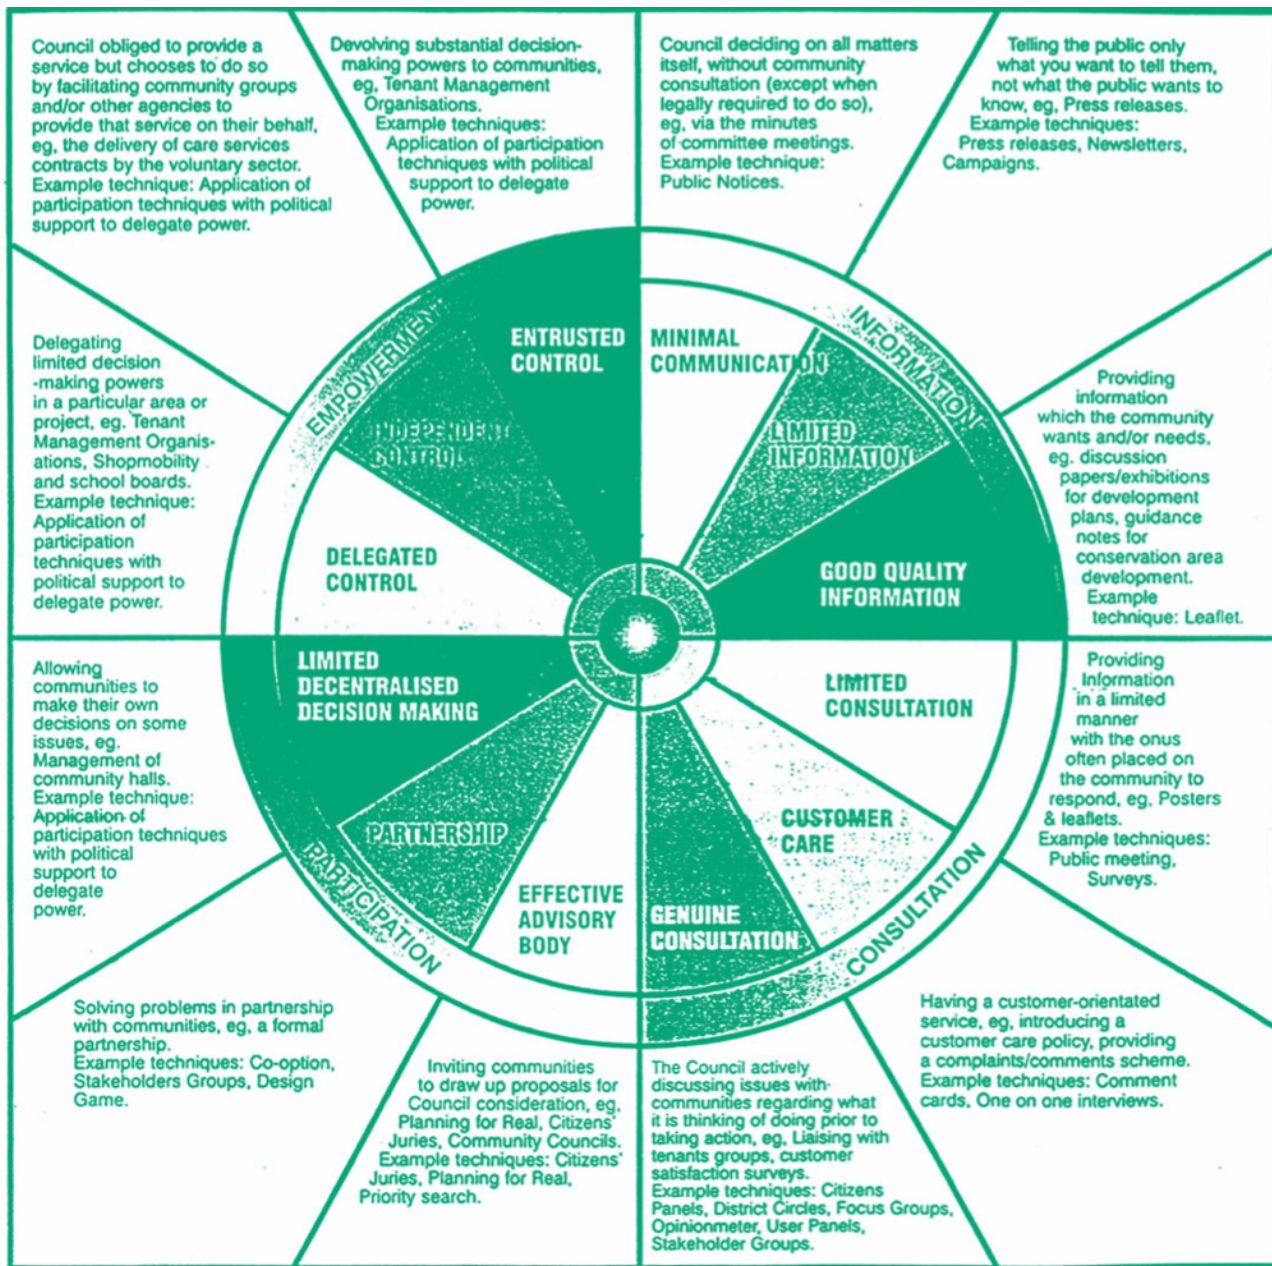

- 1970/1980 civil-rights/ecological movement (“68er Bewegung”)
 - strong link to **urban renewal and urban quality** of life (racial issues were not a driver as in the US)
- **Changing relationship experts/communities**
- **Increased relevance of everyday culture/architecture**
 - Yona Friedman 1970s – different kinds of knowledge
 - Bernard Rudofsky 1980s – architecture without architects

Planquadrat Vienna, early 1970s

Ottokar Uhl: The Human Scale in Architecture, Austria, early 1980s

Today

Participation and EU policies

- Participation and sustainable development
 - Agenda 21 (Rio 1991, Aalborg 1994)
 - 1998 Aarhus-Convention
- Participation required in environmental planning
 - 2000 - EU Water Framework Directive
 - 1991/1997 EU Convention on Environmental Impact Assessment and land use planning – often only information!
- Participation as voluntary, non legally binding
 - mostly recommendations
 - Bürgerbeteiligung (citizens' participation) and Öffentlichkeitsbeteiligung (public participation+ advocacy)

Today

Participation and International policies

- The 2000 European Landscape Convention
 - Landscape as **perceived by people**
 - **Signing countries to engage residents in participation (article 5, section b).**
- UN Sustainable development Goals
 - 17 integrated goals
 - Goal 17 **“A partnership to achieve all goals”**
- **UN Agenda 2030**

*“We are determined to mobilize the means required to implement this Agenda through a revitalised **Global Partnership** [...] based on a spirit of strengthened global solidarity, focussed in particular on the needs of the poorest and most vulnerable and with the participation of all countries, all stakeholders and all people.”*

Quizzes!

- Think of your own experience in participation: at which level of the ladder was it?

1_Manipulation

2_Therapy

3_Informing

4_Consultation

5_Placation

6_Partnership

7_Delegated Power

8_Citizen Control

Quizzes!

- What was the key method of engagement employed in these participatory projects?

Today

The Nuances of Participation

- Recognition that participation should be **rich** and **full (e.g. include diverse points of view)**
- A nuanced approach: from the ladder (Arnstein) to the wheel of participation (Davidson)
- From advocacy to **visionary synthesis** (Hester 1999)
- Participatory Action Research. Designers as partners in **co-creation (Reason and Bradbury)**

Future Performance of participation

Henry Sanoff's **functions/goals** for participation:

- generate ideas
- identify attitudes
- disseminate information
- resolve conflict
- review of proposals
- allow pent up emotions to surface

other functions:

- Opening of process to stakeholders
- Diversity of viewpoints
- Meaningful participation
- Integrating stakeholder concerns
- Information exchange

Future Performance of participation

Randy Hester (2012):

42 criteria for evaluating community participation organized by areas of impact:

- Democratic Process
- Community Considerations
- Environmental Justice
- Learning Opportunities
- Power Distribution
- Ecological Considerations
- Design Outcomes

CRITERIA OFTEN USED TO EVALUATE PARTICIPATORY DESIGN

Democratic Process

	Roots	Associations	Disobey Unjust Laws	Barn Raising	Revival 1960-1980 Participatory Approaches	1.	2.	3.	4.	5.	6.	7.	Subsequent Approaches	1a.	1b.	1c.	1d.	2a.	8.	8a.	8b.	8c.	8d.	8e.	8f.	9.	10.	10a.	10b.	10c.	10d.	10e.

Participation practices

Larry Halprin's RSVP Cycle

- Lawrence Halprin (1916-2009) incorporated participation in his design work
 - Levi's plaza/Portland parks sequence
- **Collective creativity**
- **RSVP Cycle** (1969) and **'Take part'** (1970)
 - Resources - the knowable and controllable quantities in a given situation both external and internal to the group
 - *Scores - the vehicle by which groups carry out their activities; the plan, instructions, schedules, and so on. A graphic representation of a project (the key contribution of a designer)*
 - Performance - the execution of the score by the group; the way in which objectives are realized
 - Valuations - the evaluation, feedback, decision making portion of a cyclic process involving the above elements

The RSVP Cycles

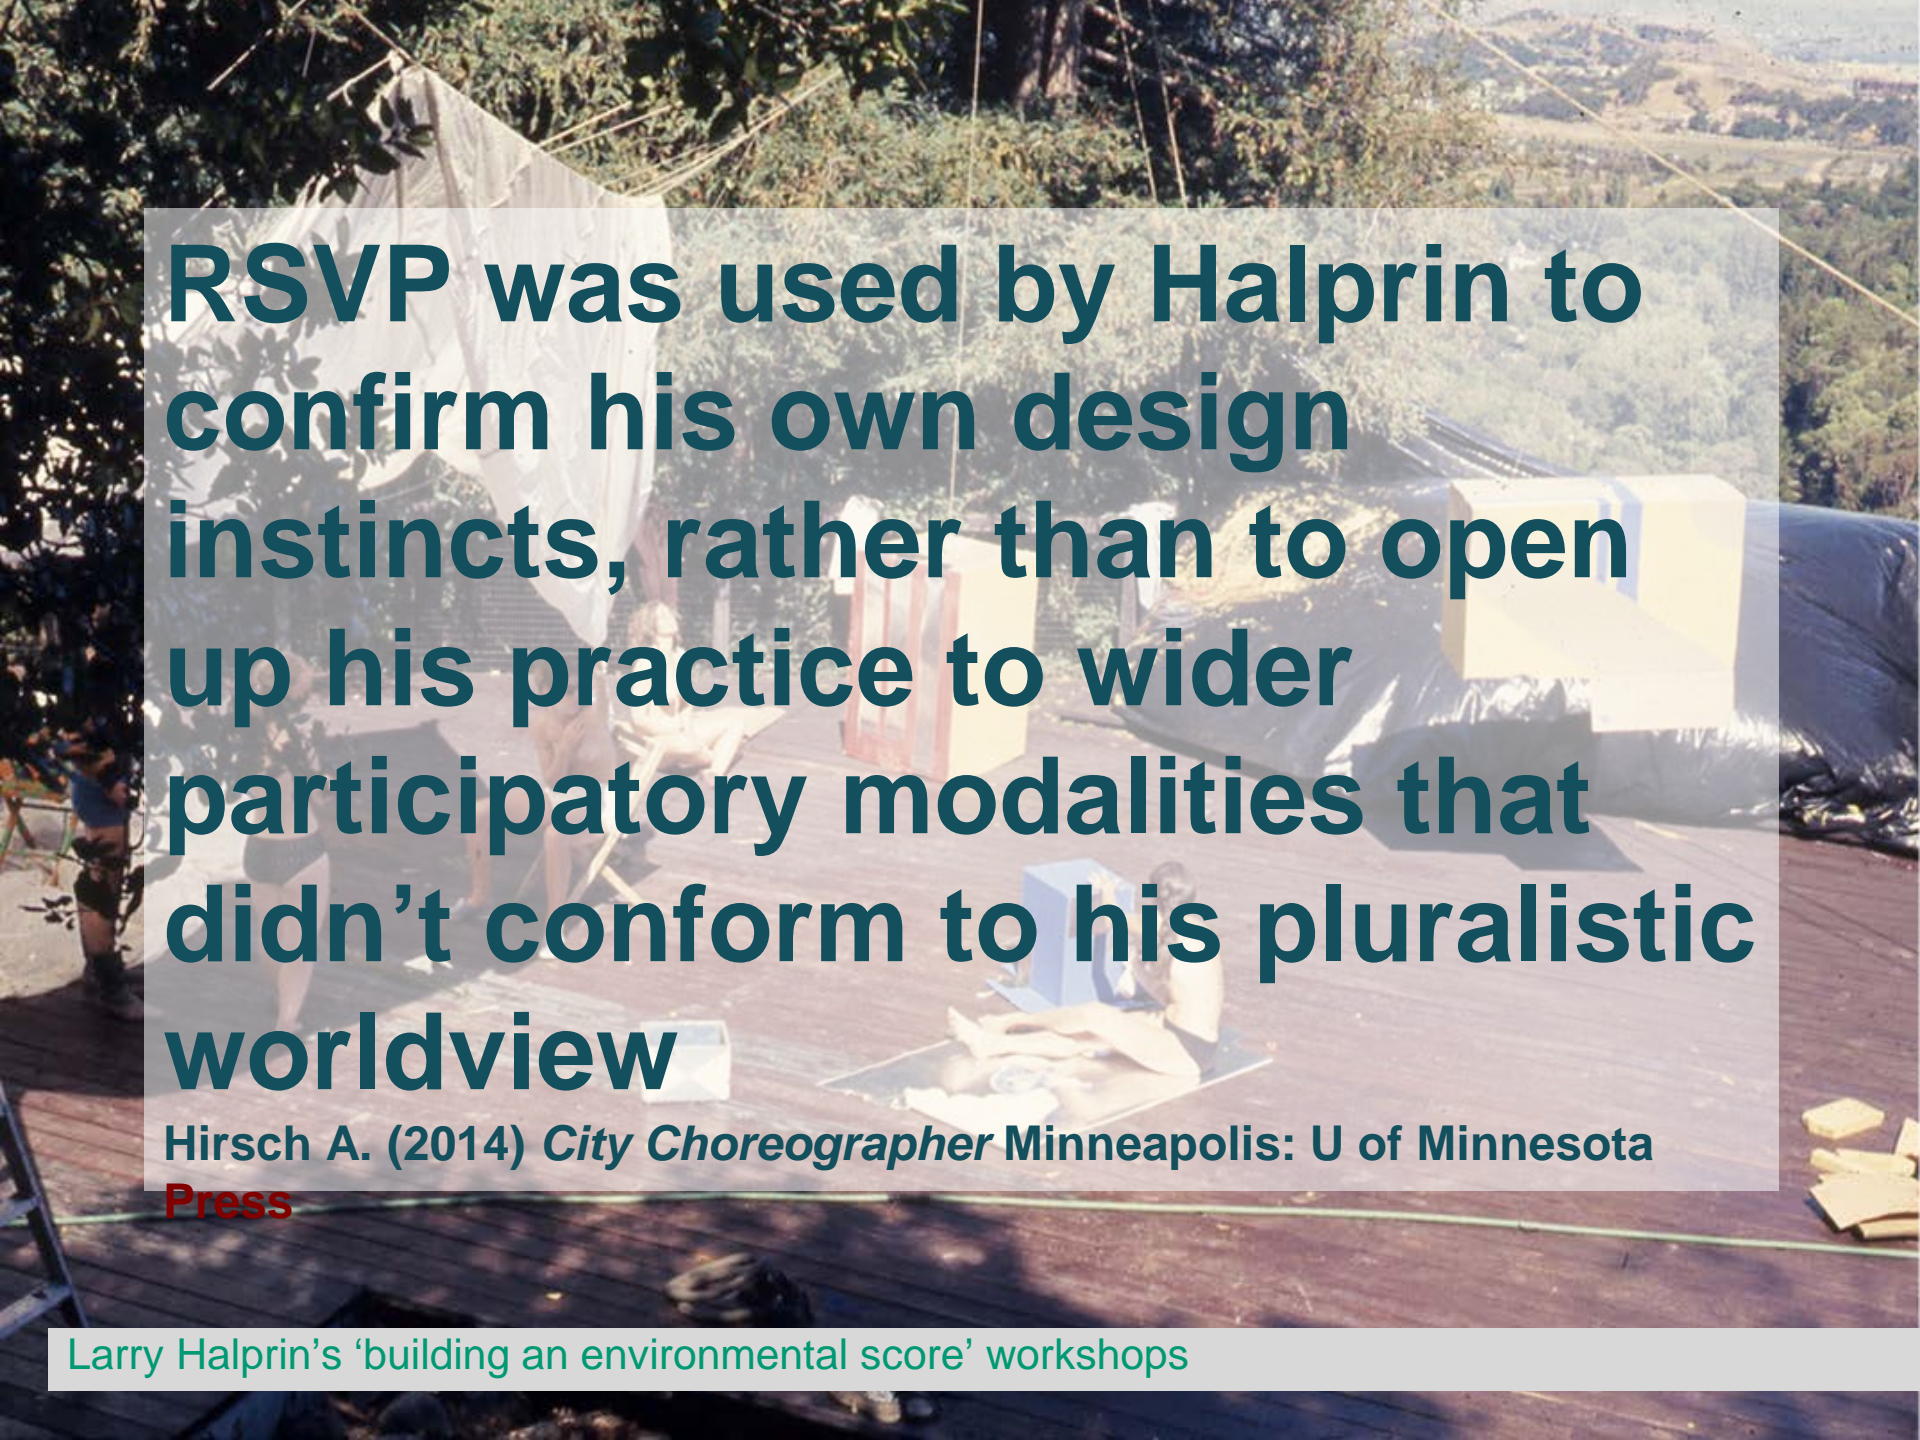

Larry Halprin's "take Part" process for Seaside, CA

Larry Halprin's 'building an environmental score' workshops

RSVP was used by Halprin to confirm his own design instincts, rather than to open up his practice to wider participatory modalities that didn't conform to his pluralistic worldview

Hirsch A. (2014) *City Choreographer* Minneapolis: U of Minnesota Press

Participation practices

Service-learning

- Design-built (Rural Studio @ Auburn University since 1993)
- Collaboration between universities and communities (top-down, **goal-oriented community participation**)
 - Outcome 1: It teaches students how to ‘serve communities’
 - Outcome 2: Transfer of state-of-the-art research/practical knowledge in exchange for ‘hands on’ design training
- “Consultancy” model
- **Empowerment:** a community resource to support **bottom-up redevelopment**

RURAL STUDIO AT TWENTY

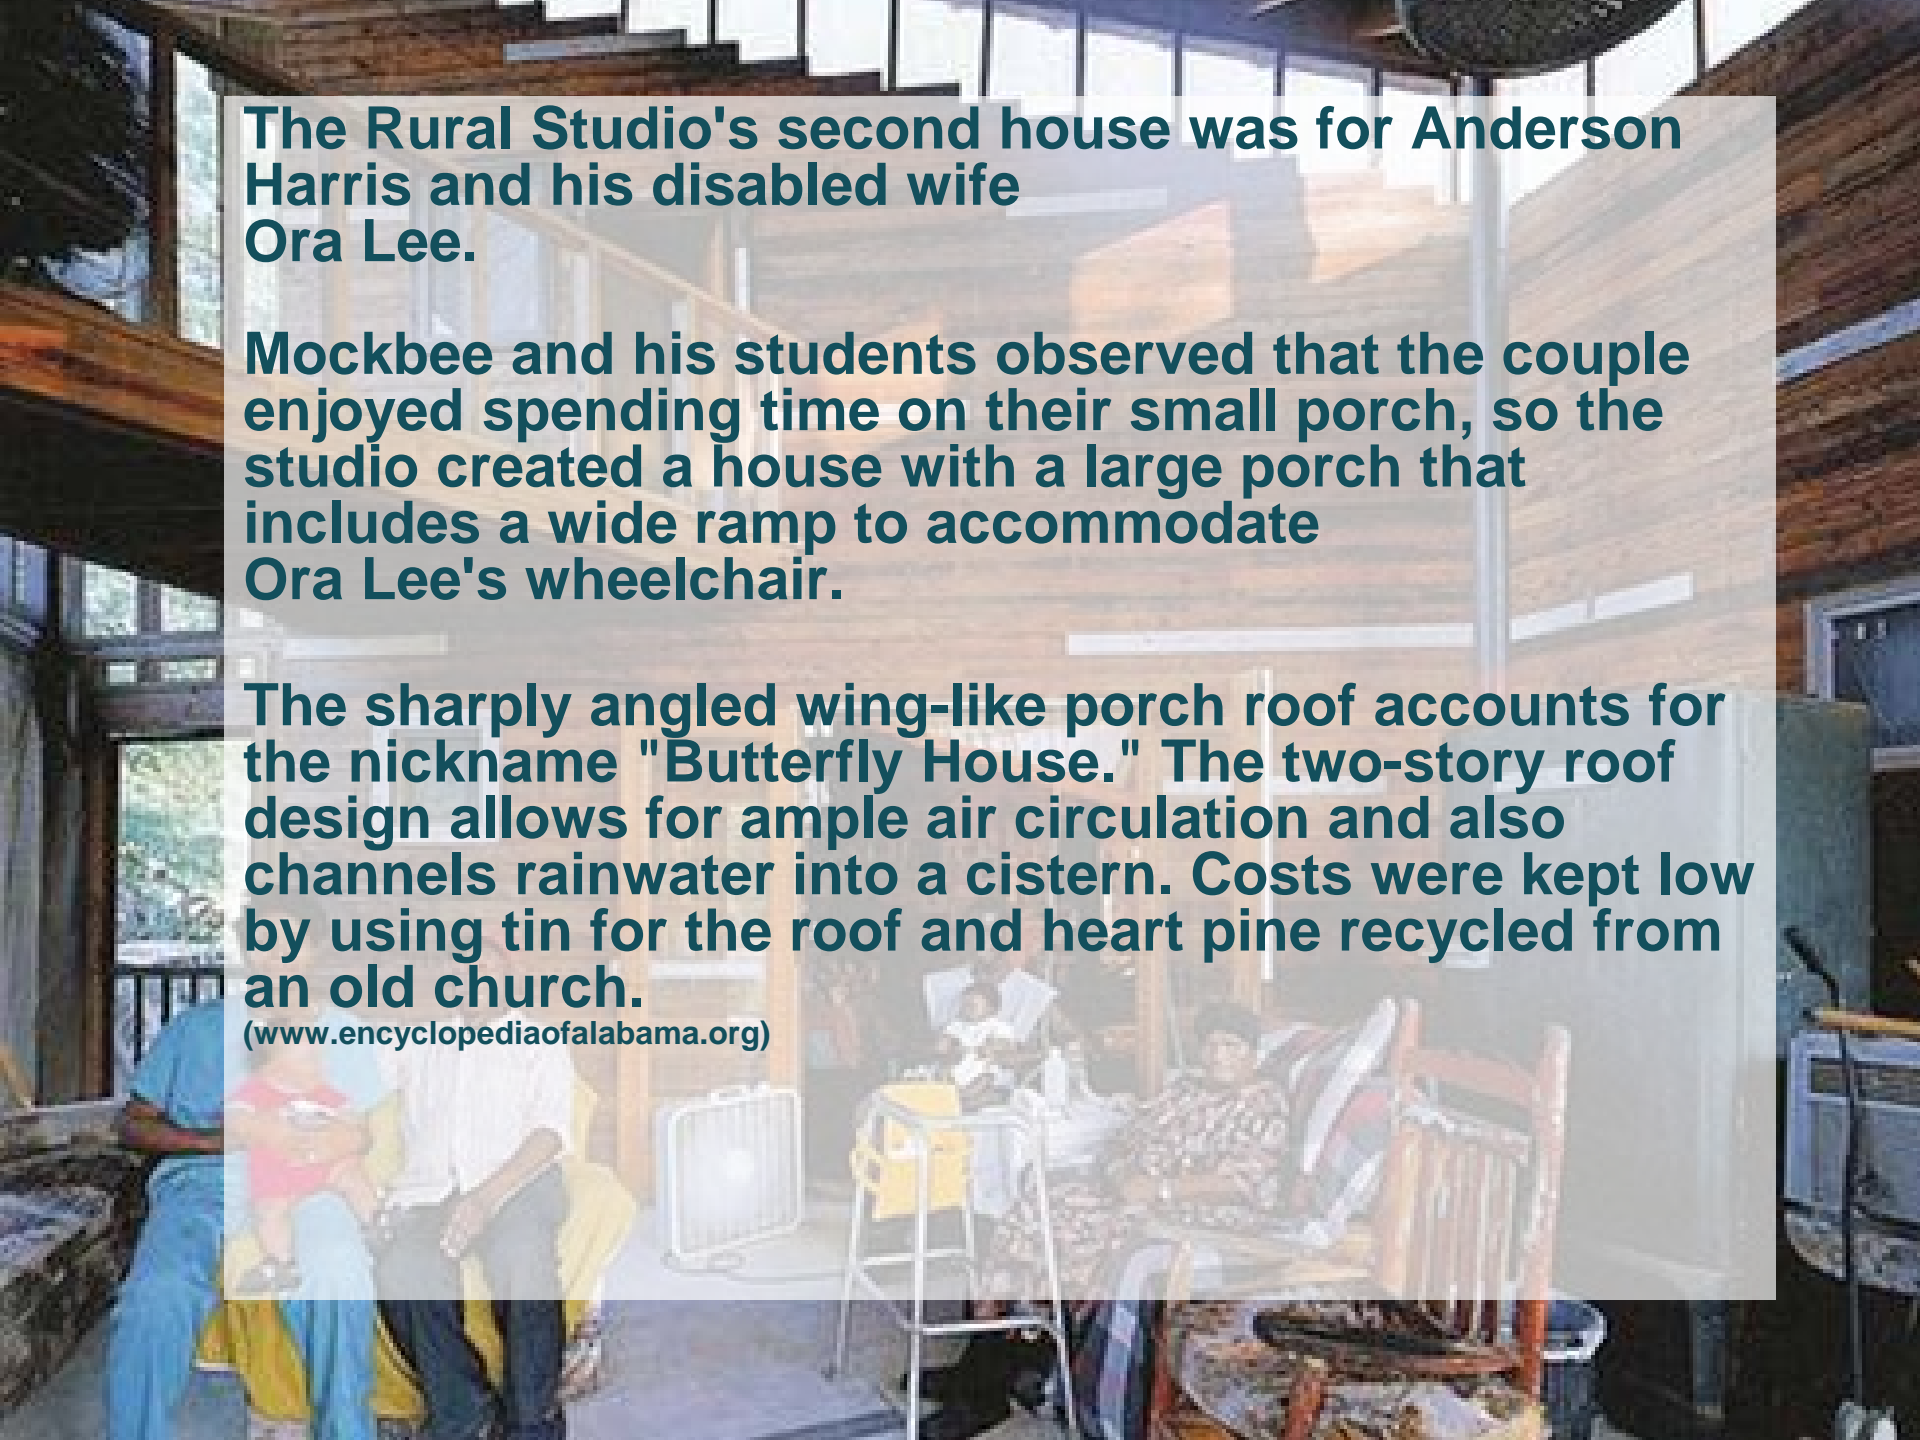

DESIGNING AND BUILDING IN HALE COUNTY, ALABAMA

ANDREW FREEAR and ELENA BARTHEL with ANDREA OPPENHEIMER DEAN
photography by TIMOTHY HURSLEY

Butterfly House – Sam Mockbee and the Rural Studio (1997)

The background image shows the interior of a rustic, two-story house with a prominent wooden staircase and large windows. The space is filled with people, including a woman in a wheelchair and a man in a white shirt, suggesting a community or family gathering. The architecture features a mix of wood and metal, with a high ceiling and a large, angled porch roof visible through the windows.

The Rural Studio's second house was for Anderson Harris and his disabled wife Ora Lee.

Mockbee and his students observed that the couple enjoyed spending time on their small porch, so the studio created a house with a large porch that includes a wide ramp to accommodate Ora Lee's wheelchair.

The sharply angled wing-like porch roof accounts for the nickname "Butterfly House." The two-story roof design allows for ample air circulation and also channels rainwater into a cistern. Costs were kept low by using tin for the roof and heart pine recycled from an old church.

Participation practices

Erskine & participatory architecture

- Ralph Erskine (1914-2005)
- Trained in the 'garden city' ideals
- Influenced by Scandinavian society and its emphasis on collaboration/*dugnad*/pragmatism of the 1960s and 70s
- **Social engineering**
 - Architecture as a source of good citizenship
- Driven by the designer but **aimed at residents' empowerment/self governance**

Ralph Erskine

Byker in the 1950s prior to Erskine's redevelopment process <http://bykerlives.com/>

WHO BENEFITS FROM PUBLIC PARTICIPATION?

THE BYKER EXPERIENCE

WELL, IT JUST SEEMS IF WE CAN CHANGE THAT LITTLE PART, THEN WE CAN CHANGE THE OTHER LITTLE PARTS TOO!

Introduction: The promise

When it first became popular in Britain about ten years ago public participation was hailed by many as a welcome reaction to the ever-increasing power of the state, and in particular the local authorities. As an idea, participation is now widely accepted and built in to all sorts of state functions, from housing management to structure planning. But who benefits? Have the working class

I was commissioned by the Department of the Environment to carry out research on Newcastle's urban redevelopment project at Byker. On the basis of that research I shall try to show that **for participation to be successful from the public's point of view it is necessary to oppose the authorities' tendency to organize the process in ways which result in a minimal redistribution of power.** Otherwise participation will continue to be very often little more than a technique of ur-

Participation practices

Participant Action Research P.A.R.

- P** Partnership.....a collaboration as equal partners
Emergent..... processes and goals vary as they unfold
Inclusive..... seeks to engage a multitude of perspectives
Native wisdom driven..... there are no experts
Transdisciplinary..... working together on complex solutions
- A** Dialogic..... from top-down to bottom up
Action driven..... projected toward change, not status quo
Adaptable..... it has the capacity to evolve with the context
Strategic..... it is creative in achieving the most with the least
- R** Reflective.. it seeks to build on experience (successes/failures)
Rigorous..... carefully documented and conceptualized
Communicative..... shared knowledge and education

Participation practices: Rust to Green in New York State

- R2G begins in 2009
- Community development in 7 NY state declining yet 'smart' cities
- **Placemaking by design**

Goals

- To identify sites, networks and communities with the greatest green development potential
- To foster community-based decision-making capacity and **co-author new narratives** of sustainability and resilience

Tools

- Urban agriculture; stormwater management, **public art**, eco-literacy workshops, **mapping**

Building On Assets In NYS Communities

- Building on social, cultural, economic, and environmental assets to foster greater strength
- innovative, driven, participatory, place-based, creative, and the community... [more](#)

R2G is a Collective Action toward A Sustainable Future in NY State

The Rust to Green New York Action Research Initiative is an emerging network of Cornell educators, researchers and students-from a myriad of fields and disciplines- working together and in collaboration with a wide range of community partners to identify and design innovative strategies and solutions addressing the unique problems and needs of New York's Rust Belt cities. [more](#)

Rust to Green's 'One World Flower Festival' in Utica's Oneida Square

The LED intensive programme will happen in parallel to the 14th edition of the *documenta*, which is one of the world's most influential exhibitions of contemporary art. Next to its traditional home in Kassel, this year's *documenta* will also take place in Athens. Our workshop will actively reflect the artistic positions of the *documenta* 14 against local landscape democracy action.

Summer 2017 Intensive Program at Kassel's Nordstadt district
